From **Idea to Deployment:** AI Tools Workshop for Future Innovators

Empowering Students to BuildReal-WorldAIApplicationsWithoutCoding
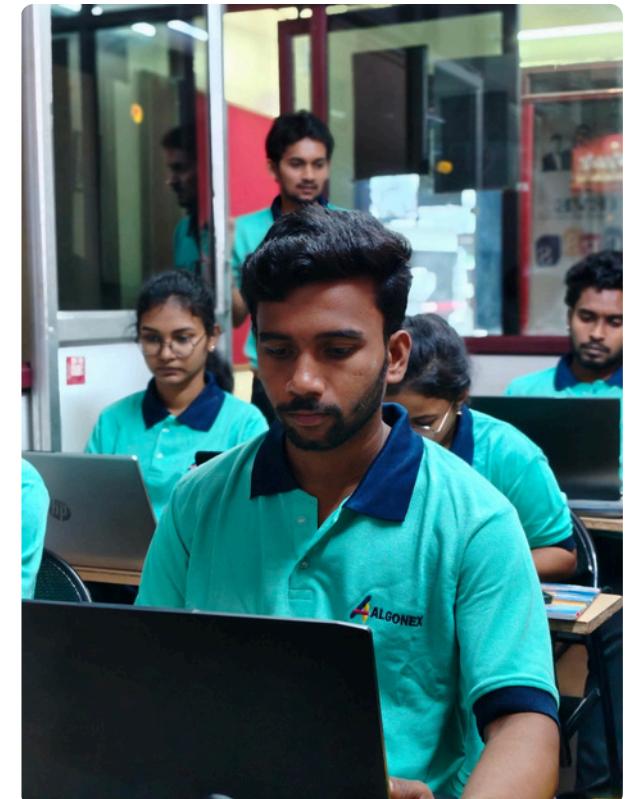

Presented by **Algonex IT Solutions**

Partnering to Prepare Students forTomorrow

We're proposing a collaboration to bring cutting-edge AI education directly to your campus through our **Gen AI Tools Workshop**. This hands-on initiative is designed to bridge the gap between academic learning and industry demands.

As part of Algonex's **Industry- Academia Partnership Program**, this workshop equips students with practical skills in AI-assisted development, preparing them for the rapidly evolving job market where AI literacy is no longer optional - it's essential.

Algonex

Why This Collaboration Matters

AI is Transforming Every Industr y

Students needhands-on exposure to no-code AI tools to stay competitive in the modern workforce.

Bridge the Skills Gap

Close the dividebetween academic curriculum and real-world industry requirements through practical workshops.

Enhance Your Institution

Boostplacement readiness, deliver cutting-edge learning, and gain recognition as an AI Partner Institution with Algonex.
